CONTACT ME

Website Development

Build a website using the best
algorithms.

System Information Pasar Baru

What About This Project?

This project is the final project of the 5th semester lecture with web programming courses. information system website, which can manage merchant data, data on goods sold and details regarding what each floor has.

What's My Role?

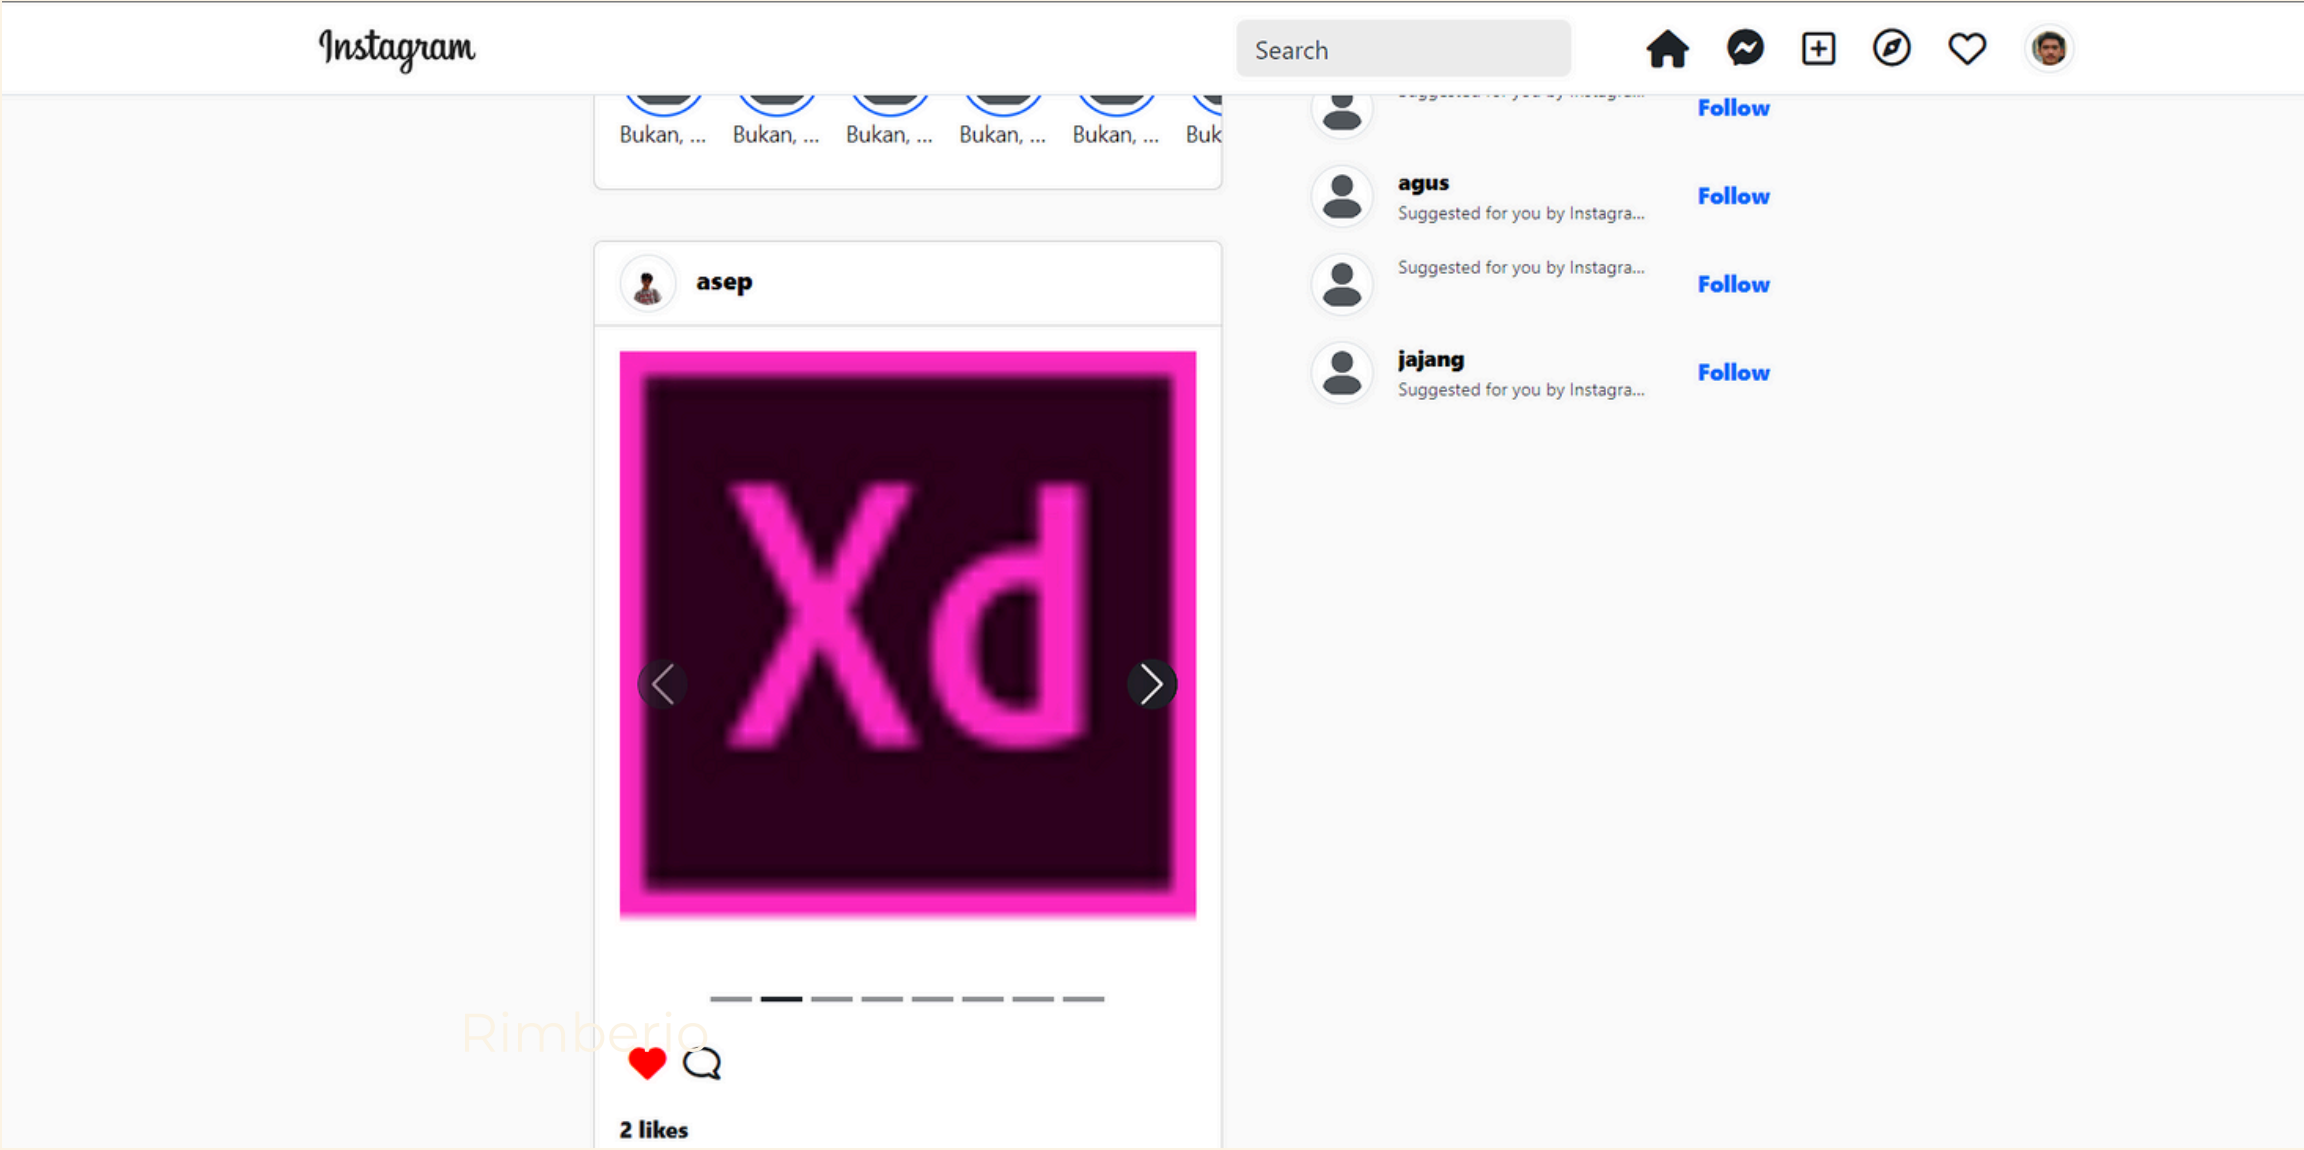

I built this project by myself by starting to design a nice front-end to an easy-to-understand back-end algorithm.

MORE CERTIFICATE

The background is a solid green color. In the top right and bottom left corners, there are clusters of light blue, pill-shaped dots. A large, light cream-colored rectangle with rounded corners is centered on the page. Inside this rectangle, there is a light blue pill-shaped button with the text "OR ON MY WEBSITE PORTFOLIO". A green curved arrow points from the top right corner of the cream rectangle towards the button. A solid teal circle is located in the bottom right corner of the cream rectangle.

OR ON MY WEBSITE PORTFOLIO
